## PROPERTY OWNERS ENTER A PROTEST

Object to Use of Eighteenth Ward Square for Skating Rink.

HELD MEETING TODAY NOON

Will Use Every Possible Remedy to Prevent Use of Ground for Such Purposes,

Property owners residing in the immediate vicinity of the Eighteenth ward square are very indignant over the proposed turning of that valuable location into a skating rink with the objectionable surroundings that so often characterize such places of amusement and which residents believe will be allowed to intrude themselves there. So a hastily called meeting was held this noon to protest against the square being used for any such purpose. There were either present or represented there Bishop Clawson of the Eighteenth ward, as representing the Church, which is deeply interested because of the immediate proximity of the ward chapel and Whitney hall; Bishop F. S. Spalding of the Episcopal church, which is also greatly interested because of the close location of Rowland hall, the well known Episcopal school for girls; Col. T. G. Webber, superintendent of Z. C. M. I., ex-Gov. H. M. Wells; General Manager H. G. Whitney of The Deseret News Publishing company, Prof. Marshall of the state university, Cashier C. S. Burton of the State Bank of Utah, Atty. Robert Harkness, John D. Spena hastily called meeting was held this S. Burton of the State Bank of Utah, Atty. Robert Harkness, John D. Spen-cer, Lawrence Greene, George D. Alder, City Treasurer John A. Groesbeck, H. M. Dinwoodey, L. B. Hills and others. The expressions of opinion in the matter were strongly against the square being leased or rented for any such pur-pose, with a firm determination to pre-vent it by all possible means. The be-lief was expressed that the presence of a skating rink there meant the intro-duction of loud music lasting until after midnight, to the annoyance, if not dis-tress, of the entire neighborhood. Moreover intoxicating drinks are sold at such places, hurdygurdy contrivances are introduced, and crowds of people including many objectionable characters are sure to be attracted there to the annoyance and discomfort of residents. Then, in addition it was bethe annoyance and discomfort of residents. Then, in addition, it was believed that the management would use the square in summer for a resort with scenic railways, roller coasters, merry go rounds, and other noisy contrivances, tending to make the place more than ever a public nuisance to residents of the ward.

A committee was appointed consists.

of the ward.

A committee was appointed, consisting of Bishops Spalding and Clawson to walt on Mrs. W. F. Holmes, owner of the property, to make before her an embatte protest. This they did this afternoon. Mrs. Holmes received the committee very kindly, and disclaimed any intention whatever to allow the square to be used for rink purposes. She said if anything had been done in this way, it must have been by her agent, for she knew nothing about it, and would not knew nothing about it, and would not countenance, any such move. At the same time parties, claiming to have leased the square, have begun work with teams and scrapers and are boarding in the square. But it is believed that this energetic action on the part of residents will prevent further operations in this line.

At 3 p.m. following the meeting it was announced that work had ceased

## THIRTY DOLLARS A DOZEN FOR EGGS

Judge Whitaker Places Hi h Value on Hen Fruit If Sentences Are An Indication.

Police Judge J. J. Whitaker has again come into the limelight as the cham-pion of high prices. By two recent decisions he has shown that he sees things as the food trust sees them when comes to the price of household commodi-ties. As an index of how he values the ommodities of life he has placed a legal price on eggs.

A week ago William Brady confessed that he stole a hatfull of eggs from a Chinese restaurant and the judge at once pronounced a sentence of 90 days in fall. Yesterday afternoon Hugo Martin pleaded guilty to the charge of stealing about a dozen eggs from the Vienna Cafe. The judge placed a corresponding price mark on the hen fruit which means Martin will serve 30 days. A day in jail is regarded as the legal equivalent of one dollar, so it is evident that in the opinion of Judge Whitaker eggs are worth \$30 a dozen.

## **GOOD CHANCES FOR** WHITE CHRISTMAS

First Snow of the Season Starts to Fall This Afternoon—Storm Only Local.

The appearance of snow today, gladdened the hearts of many, as it promised a regulation, old time Christmas

"Oft expectation fails, and most oft

When most it promises." The weather bureau neutralizes all this expectation with the announcement that it is only a local storm anyway, due to a complexity of causes anyway, due to a complexity of causes, the prevailing high barometer militating stormy weather that is orthodox at this season of the year. The slight meteorological flurry of today, is scattered over the northern part of the state, and is now moving eastward out of the way. However, it may snow a little tonight and Wednesday, only that and nothing more. The grown. that and nothing more. The general hope is that the clerk of the weather will experience a change of heart, and order the Japan current to hurry inland storm conditions so that the Pacific slope may enjoy regular Christ-mas weather, with sleighing, skating, and all the other et ceteras. The month, so far has been unusual

for high temperature which has been 2½ inches above the normal; but in precipitation the weather office has nothing to complain of. The temperanothing to complain of. The temperature this fall and winter has been steadily abnormally high, to the great grief of the coal dealers, and the dismay of the retail trade in a number of lines. A good stiff stretch of winter weather would brighten up trade all over, and start money to circulating more freely. The rubber goods dealers have been feeling unusually blue, at the absence of rain and snow, and baye. absence of rain and snow, and have done practically no business this fall.

#### FUNERAL OF NATHAN TANNER.

Service Held in Granite Stake Tabernacle Today.

Funeral services over the remains of Nathan Tanner, 95 years old, who died last Saturday night, were held at 12 o'clock today at the Granite stake tabernacle. Bishop McCrea of Granger presided at the services and Patriarch James McGhie offered prayer. Miss May Bennion, Miss Haigh, Miss Frame and Miss May Bennion sang "Be Thy

and Miss May Bennion sang "Be Thy Will."

Bishop McCrea was the first speaker. He said that to talk to Nathan Tanner on the early history of Utah was like opening a beautiful book. The speaker said that his name had been associated with the early history of the Church of Jesus Christ of Latter-day Saints and that he remained in the faith until the last.

President Seymour B. Young referred to the character of Nathan Tanner and read the account of his life published in an article in The Deseret Nows. President Young bore testimony to the good works of Nathan Tanner and declared that he was one of the elements that organized the Church in this part of the country.

President Francis M. Lyman said that his mother was a sister of Nathan Tanner. The family were of English and Scotch stock, strong and sturdy. For several generations the family had been frontiersmen and that those who joined the faith remained true to it until the end.

President John Henry Smith bore testimony to the faithfulness of the life of Nathan Tanner. He declared that to die in the faith of the gospel, and die with the testimony of its truth upon his lips after a life of hardship was the triumph of Nathan Tanner.

President Joseph F. Smith spoke of the history of this good man which he said had been closely woven with the history of the Church. He said that he had regarded the life of Nathan Tanner as an example for his life. In

that he had regarded the life of Nathan Tanner as an example for his life. In conclusion, President Smith urged the children and descendants of this man to follow in his footsteps, leading a life of truth and righteousness. The quartet sang "O Grave Where is Thy Victory," and Frank Y. Taylor offered benediction. The interment was in the

## THE ROUND OF THE THEATERS

COLONIAL-DeWolf Hopper's friends were out in goodly numbers at the Colonial last night to bid him welcome onial last night to bid him welcome back once more. Few actors who ever visit us appeal more strongly to our risibles than this elphantine comedian, and from the days when he first sprang into fame, with his "Casey at the Bat," down through such successful periods as "El Capitan," "Wang," "Dr. Syntax," and a host of others, he has retained a warm place in our memory. No comedian of the present day has so No comedian of the present day has a keen a sense of humor, or a more de-lightful manner of rendering the bur-esque, than Mr. Hopper. In his new yehicle "A Matinee Idol" he is given a chance along one of his best lines, that portraying an impecunious actor, re-need to the necessity of masquerading a doctor, in order to make both ends ect. Along with the burlesque story, here is a semblance of a love romance unning through and it is all humor ously and delightfully done; everything about it so spick and span, fresh and exhilirating, that the whole thing acvated the audience last evening. Mr. Hopper was called on for the usual entr'act address, and made even a bigger hit by his felicitous allusions than he did in his role. Another hit was made by that charming actress Louise Dresser, who thoroughly partook of Mr. Hopper's burlesque spirit, and gave a number of songs and sketches in admirable style. Not the least excellent feature was the chorus girls. The company in this respect is an Adamless Eden, there is not a tenor or bass any-where in evidence. The money that have been spent on these adjuncts has been devoted to selecting pretty girls who could sing dance, wear bewitching gowns, and act, and the inno-vation is a thoroughly delightful one. No fresher faces and voices than are o be seen in this group of chorus girls, have ever visited us, and they gave the erry rare impression of enjoying their york. Excellent support was given the work. Excellent support was given the two stars all through, and especially by Mr. Mack, as the diminutive jockey. The other parts were in good hands.
"A Matinee Idol" runs tonight, tomorroy afternoon and evening. It will be followed next week by "A Stubborn Cindensia".

The performance is good all the way through, the music of the orchestra is exceptionally meritorious and even the kinodrome pictures are interesting.

It works automatically and from the tests that have been made during the past two days, accomplishes the work, only a slight hazy smoke coming from the chimney. The device shoots steam into the fire-box every time the dor is opened and coal thrown. The steam combines with the air which is sucked into the fire-box by the machine and the hydocarbons that arise from the coal, exploding it and preventing any smoke. ## WALKER WILL CASE AGAIN POSTPONED

Mrs. Walker Now Has Telegram and Other Documents Asked for In Hearing.

Mrs. Althea Walker, widow of the late David F. Walker, has received the telegram from her daughter, Mrs. Margaret Walker Smoot, of Seattle, which was requested by Charles W. Baldwin, master of chancery of the United States district court, before whom contempt proceedings are being heard on a citation charging her with removing stocks, bonds and securities from a safety deposit box in the Utah Savings & Trust company's vault, alleged to belong to the Walker estate in viola-tion of an injunction issued by Judge John A. Marshall of the United States district court. In the telegram Mrs. Smoot declares that she has not in her possession the list of stocks and bonds which were made out by her and her brother, Clarence, in San Francisco. She says she believes that the list was put back in the vault with the stocks and bonds, where they were deposited in a safety deposit box in San Francisco. Mrs. Smoot was also unable to give a list as requested and it is probable that the deposition of J. E. Bennett, an attorney, who assisted Mrs. Walker in removing the papers from Salt Lake, will be taken.

The list of securities has figured prominently in the case from begin-

ning to end. A partial list was secur-ed from Clarence walker and Mrs. Walker while on the witness stand and Mr. Bennett also gave the stock and bonds as he remembered them. When the hearing is resumed again before Master of Chancery Baldwin, Mrs. Walker will submit the telegram. After this is done the arguments will be heard by Mr. Baldwin and then he will file his findings of fact and conclusions of law with Judge John A.
Marshall of the United States district
court together with the testimony
taken in the case.

Both Judge O. W. Powers and Atty.
